Much more might be accomplished if the powers of the Board were increased, and their duties more explicitly defined. It has, however, scrutinized closely the expenditures of the public moneys so far as it controlled the same. As an instance of this, it may be mentioned that while the Commissioners of Records had expended, under the old system, about six hundred thousand dollars, the sum of fifty thousand dollars only has been allowed by this Board since its new organization, with the exception of eighty thousand dollars inserted in the tax levy of this year, under the direction of a mandamus from the Supreme Court.

Let us strive to merit the countenance of the public approval, by an unostentiation discharge of our public duties, of looking only to the best interest of the whole community, and so far at least as we have power, to add in leasuning the burders of taxation consistend with the ord; by and efficients administration of, our legal gover near a again thanking you for your kind partiality inslecting me as your President, I am ready to per cond with the duties thus placed upon me.

Mr. Twen (Dem.) said there had been statements a some of the papers, to the effect that the Democrat-

There had been no wrangling or quarreling in the

subject. On the contrary, the Democratic members

had been so well pleased with the manner in which Mr. Strwart had performed the duties of President of the B-and, that they were unanimous in the opin-

ion that he shou'd be re-elected. He, therefore, nom-

Mr. Punny (Dom.) seconded the motion, and Mr. STEWART (Rep.) was unanimously elected.

Messis. Davis, Purpy and Durcher, were appoint

on of the Board.
On taking the chair the President spoke as fol.

GENTLEMEN:—I tender you my heartfelt thanks for the honor you have instrongered on me in electing me your presiding office.

This manifestation of your confidence in me is especially gratifying, not only from the fact that I have received the support of the entire portion of the Beard opposed politically to myself, as well as that of my own political friends, but because it may at the same time be deemed an expression of your approval of my sflicial conduct as your President during the past year.

The Light-House Board had in the District in which South Carolina has her new kingdom, three small vessels from eighty tons down to fifty tons, to place buoys and supply the light-houses with oil, &c.; the United States Coast Survey had a small steamer of ninety tons, the Fire Fly, there as a surveying vessel. Mr. Purdy said he was opposed to this hasty legislation. Before he could vote upon the resolution, he wished to consult various authorities, vizi—Bluyr on Eends and Assurance, Krawsov on Specials, and Wood on the Power of the Single Eye.

Finally the resolution was referred to the Committee on Annual Taxes.

A bill, amounting to \$104, for meals furnished policemen at the Fish Avenue Hotel, during the stay of the Prince of Wales, was ordered to be paid. (The charge is at the rate of \$1 is head per day.)

The Quarterly Report of the Compitoller, for the quarter ending December 31, 1860, was received and ordered to be printed.

From this document it appears that the expenditures during the last quarter were, \$683,661 35; and during the whole year, \$3,371,500 58. The amount of warrants outstanding, is \$11,813 44.

The Mayor's message, vetoing the resolution adopted by the Board increasing the pelice force by 400 meu was taken from the table.

Mr. Buder moved that the Board adhere to its former action. He said he was satisfied that an increase of force was destrable, although he was opposed to paying the men their present rate of wages. He desired that the Board of Police Commissioners was a partisan body; they had appointed members of the old force on the new police, thus showing that they were not influenced by party considerations. He had also necertained from reliable sources that more than one half of the present force was composed of men voting the Democratic ticket.

On the motion being put, the Board unanimously adhered to its former action.

The Board then adjourned to Tuesday next at 3 P. M. Columbia, Capt. BERRY, left her dock, pier No. 4 orth River, yesterday afternoon at 3 o'clock for Charleston, S. C. It was rumored that the vessel ras loaded with and would take out a large quantity

FATAL RESULT OF VIOLENCE.-JOHN WESron, a native of Ireland, 54 years of age, died yesterday at Belivue Hospital, from the effects of injuries received in November last, but by whom inflicted is not known. It appears that on the 2nd of November, his wife had a quarrel and fight with Hosona Mo-Carty and Kark McClain, at the tenement house, No. 24 if First avenue, where they all lived. After the fight was over, the belligerants returned to their rooms, but soon Hosona and Kark went together to the room of Mrs. Weston and knocked at the door. Wismon opened the door and put his head out, when one of the women, as is suspected, struck him with a hatchet, and he was dangerously injured. He was taken to the Hospital where he lingered until early yesterday morning and expired. The evidence before the Corner's jury was to the effect that the wound upon the head was the cause of death, but it was not clear that either of the two women had infected it, and the jury rendered a vardict of "Death by violence at the hands of some person unknown." The Coroner, however, held the women to bail in \$500, to appear as witnesses in case they should be needed. day at Belivue Hospital, from the effects of injurie

Jeffards, indicted for the murder of Walton and Matthews, asking for an immediate trial, as he had been confined in the city prison more than eight months. The Court did not feel inclined to answer this letter, but would ask the District Attorney when he would be ready to try the accused, and thus give publicity to it.

The District Attorney replied that he was not yet prepared for trial, but that no time would be lost, and the case would be called on as soon as possible.

The trial of Simon Katz, for arson, was then continued. Several witnesses testified to the threats used by Louis against his unde. The trial progresses alowly, as many of the witnesses are foreigners, whose testimony has to be given through an interpreter.

The McSpedon and Baker claim,—The People & rel, McSpedon and Baker, vs. Comptroller.—
This was an application for a mandamus to the Comptroller compelling him to draw his warrant on the City Treasurer for the sum of \$80,000, alleged to be due the relators for work done under a contract with the Commissioner of Records. The argument was had through December 13th last, and was reported in the 80x on the following day. It will be remembered that the relators were engaged by the Commissioners of Records, to transcribe and make two copies of all the books, records &c., in the office of the County Clerk, and also in the Registers office. The sum claimed is on such account, It was contended on behalf of the Comptroller that this was not a proper proceeding to judicially determine the amount, if anything, was due the relators; and that there was no such body, legally, in existence, as the Commissioner of Records—the act under which that body was chartered being unconstitutional.

a-tually performed, under their contracts with the Commissioners.

That it is not, therefore, necessary on this application to decide the constitutional questions raised on behalf of the Comptroller, and that, therefore, there should be a reference to ascertain whether the amount claimed is actually due for services performed under a contract or contracts with the Commissioners; or to ascertain the sum which is due to the relators for such services, and report the same, with the proofs taken by the referee, to the Court; that upon such report, the Court must ascertain the amount due, and modify or confirm the report; and that thereupon a mandamus must issue to the Comptroller, requiring him to pay the amount so judicially determined to be due.

Chattel Mortgages and their validity.—Martin W. Brosen et. al. vs. George W. Platt et. al.—This is an appeal to the General Term of this Court. On a judgment rendered against the defendants for this court, on the 12th day of March 1860. The action was brought by the plaintiffs to recover for the conversion of certain chattels alleged to belong to the plaintiff, valued at \$1.937 31.

The defendants et up as a defence an attachment against one Glensen, under which the Sheviff seized certain property then in the possession of the plaintiffs, but which property, it is alleged, belonged to Glensen, he having had the same in his possession at Dubuque, Lowa. Glesson, it is alleged, had made several chattel mortgages upon these goods to various of his creditors. It seems that these mortgages were duly recorded but never delivered to the persons to whom they were made. In July 1858, it is alleged that Glenson sent the goods on to the pianniffs, and with them a letter, which, it is claimed, was in the nature of an assignment. It is shown that in 1867 Glesson informed the defendants of the mortgages, which, the defendants supposing to be but one mortgage and that all the creditors fared alike, acknowledged the arrangement to meet their approval. There were, however, six separate mortgages—the first to the plaintiffs assigned their supporal. There were, however, six separate mortgages—the first to the plaintiff saxif, the others subsequently made subject to the first. The defendants herein, learning that certain goods belonging to Glenson were in this city, commenced a suit by attchment, under which the Sheriff seized the goods in question. The defendants now appeal, on the ground that the mortgages was five to the defendants were estopped from alleging was prior to the defendants whereas Gleason had represented to plantiffs that all the mortgages were to be alike. That the letter of Gleason's which accompanied the goods when he sout them to the plaintiffs if relied on as an assignment, was void, because it made it a condi

INCENDIARISM-ATTEMPT TO BURN DOWN A antweet House.-Au attempt was made about 12 o'clock on Monday night to burn down a large frame o'clock on Monday night to burn down a large frame tenement house in Canton st., known as the "Rook-ery" the building is occupied altogether by colored people, who, since the death of John Shirley, who it will be recollected was beaten by several negroes on Pridsy night of last week—have been more obnoxious to their white neighbors than heretofore. Threats have been made by a number that the Rook-ery should be burned down, and it was nearly carried into effect. Four or five men were seen about the premise a short time before the flames burst forth, and there can be no doubt but that they applied the torch. The five was extinguished before much damage was done. There must have been a fearful loss of life had the fire not been discovered in time.

A concerted effort was made, on Tuesday night to flood the city with \$3 bills on the North River Bank, New York city. Parties commenced offering them in different sections about the same time. Two men, named John S. Horaning and Wa. Jones, were arrested by the 2d Precinct police; another was taken into custody by a lat Precinct officer, and still another by an officer of the 3d Precinct. The accused were brought before Justice Cognwent, yesterday, but not before graded the examples of the second way. but not being ready, the examination was postpone until today.

They stand for hours waiting their turn. A few, it is suspected, are impostors, but doubtless the great majority are in actual want. A day or two since, an affecting incident occurred. A young woman, who had been standing for some time in the cold, damp hallway, fell down from exhausten, and it was some time before she could be restored to animation. The state of her physical system was evidently the result of the want of the necessaries of life.

Deceased procured the medicine at a store in Jersey City, and on the following day commenced to take it as directed, but instead of improving he grew worse, and on the fourth day was very ill, suffering severe pains in his stomach, bowels, kidneys and entire body. The family physician was called in but could render no relief, and he died on the following day; previous to which, he requested that a post morten be made and an inquest be held on his body. The following is the evidence taken:

Mr. Mancran testified that he is a druggist, at No. 41 Montgomery street, Jersey City; on Saturday, the 29th of December, a man called at his drug store with a prescription from Dr. Etansmo, of New York; it called for eight ounces of chlorade of potash, to be put up in twelve packages; he asked if the medicine was poisonous; that he went to a store in New York, and they refused to put it up; witness told him that if one of the powder were put into a quart of water it would not injure him; the powder contained two-thirds of an os. each or about 300 grains; the largest doses prescribed, according to the U. S. Dispensary is 30 grains; twelve doses of 300 grains; each taken in 12 days, would kill any ups. of my sflicial conduct as your President during the past year.

I shall endeavor to perform my duty with skrict impartiality. I shall, however, be compelled, as before, to rely en your generous forbearance for any ergors of judgment I may commit, and also to frequently ask your advice, which I have no doubt you will cheerfully give, in the discharge of the difficut; duties of this position.

Your duties and powers are various, and highly important—and while they are confined within the same territorial limits as the city, yet they are distinct from those of the City Government. In fact, the several Boards of Supervisors in the counties of the state form a part of the general state organization, and their organization is a necessity under the constitution of the state. It is proper, therefore, that this Board should be composed of those whose public duties are disconnected with the City Councils, especially as the increased duties of the Board, from various causes, is sufficient in their faithful discharge, to occupy a large share of the time of its members. The wisdom of the Legislature in separating its organization from the machinery of the City Government, has been generally approved by our citizens, and I believe the acts of the Board since its new organization, have, in the main, merited such approved. ganization, have, in the main, merited such sp-

County Treasurer's Fee..... A presemble and resolution was presented by Mr. Bauer, to the effect that Whesees, the County Treasurer receives a per centage on the amount of taxes paid by the county to the state; and whereas the touble of collecting said taxes take upon the Escalar of Taxes, and not on the county Treasurer. Resolved, 'That a suitable memorial be drawn up and presented to the Legislature, asking that body to appropriate said fees, for the future, to the use of the county.

Mr. Bauer said that he had fully investigated this matter, and had found the amount of fees to be received by the Chounty Treasurer for the current year.

which that body was chartered being unconstitutional.

Justice Sutherland, before whom the matter
was heard, now renders his decision, holding
that the judicial determination mentioned in
the 6th section of the act of April, 1860, can
probably be had or made in this proceeding
for a mandamuse; but that the Comptroller
cannot be required to pay until a judicial determination is made. Such determination should be not only
the fixing of the sum due for services actually rendered under contract, but also a judicial determination
of the constitutional questions and objections raised
and urged in this matter on behalf of the Comptroller,
unless the mandamuse must issue noticetheleaning the
decision of such questions in his above.

It does not follow, even if the ast creating the office
of the Commissioners of Records, is unconstitutional,
and the contracts under it void, so far as the Commissioners are concerned, that the Comptroller is
not bound to pay for labor activally done under
and pursuant to such law and said contracts.

If the Legislature had no constitutional right to
appoint the Commissioners; yet as those officers never
asmed and appointed in the sot, and proceeded under

its authority and sanction to make contracts and perform work, and as it does not appear that the Altorney General er the City of New York had ever, by direct proceedings, attempted to remove such Commissioners, or questioned the constitutionality of their appointment; the Legislature could direct the payment of the amount due to the relators for services a tually performed, under their contracts with the Commissioners.
